TITLE: Online Guide to the Science of Effective Mentoring in STEMM

Author: National Academies of Sciences, Engineering, and Medicine

Published: 2019

Topic: Mentorship is essential in developing science, technology, engineering, mathematics, and medicine (STEMM) professionals. It is a set of skills that can and should be learned, practiced, and improved upon with self-reflection and feedback. If you are a mentor or mentee yourself, or if you are a leader in your organization responsible for ensuring that your faculty and their mentees have the skills to engage in the most effective mentoring relationships, this guide is for you.

TITLE: The Elements of Mentoring: 75 Practices of Master Mentors, 3rd Edition.

Author: W. Brad Johnson & Charles R. Ridley

Published: June 19, 2018

Topic: Patterned after Strunk and White's classic *The Elements of Style*, this third edition concisely summarizes the substantial existing research on the art and science of mentoring. W. Brad Johnson's and Charles R. Ridley's classic guide, *The Elements of Mentoring*, reduces this wealth of published material on the topic to the seventy-five most important and pithy truths for mentors in all fields. Here are the 75 practices of master mentors. These include

- what excellent mentors do,
- what makes an excellent mentor,
- how to set up a successful mentor-mentee relationship,
- how to work through problems that develop between mentoring pairs,
- how to mentor with cultural humility and in diverse mentorships,
- what it means to mentor with integrity, and
- how to end the relationship when it has run its course.

Succinct and comprehensive, this is a must-have for any mentor or mentor-to-be.
